REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens:

We have lost four teachers during the past year, one by death, two taking positions elsewhere, and one retiring from teaching on her marriage.

The work of all the schools is going forward in a satisfactory manner.

The attendance table, appearing on another page, should give parents and school authorities food for thought. That the per cent. of attendance for the district last year was only eighty-eight means that children are losing on an average twelve per cent. of the school work through absence. Some of this absence is, of course, unavoidable, but some would not occur if parents fully realized the importance of regular attendance.

It is perhaps significant that the Moore and the Yellow Schools, the two schools whose poor record brought down the average last year, were also the two lowest in the year before last and that last year they made a much worse record than in the previous year. During the twenty weeks of the current year, however, the Moore has shown considerable improvement. The Yellow has shown some improvement but is still low.

Last year's number of cases of tardiness for the district is nearly double that of the previous year, more than double at the Moore and nearly three times as many at the White. I am glad to report that the Moore and White are making great improvement during the current year. Last year's record at the Yellow of ten tardinesses in all is most commendable.

The remodeling of the Village school-house should be completed during the coming summer. We shall then

have three buildings in excellent condition, two of these with ample playgrounds.

The state aid to be paid us during the coming year is the largest we have ever received except for the year 1920-21.

Respectfully,

GEORGE W. SUMNER,

Superintendent.
